

## Downloading the Edusoft edition for Windows®

Before you can use ExamView to publish exams to Edusoft, you must download and install the Edusoft version of ExamView. These instructions apply to Microsoft® Windows®.

**Tip:** If you already have ExamView installed, make a note of the location of your ExamView directory. You'll want to install the Edusoft edition in the same directory.

### To download the Edusoft edition for Windows:

- 1 Log in to the Edusoft web site with your usual user name and password. Click the **Admin** tab.
- 2 Scroll down to the Downloads area and click the **ExamView for Windows** link.

- 3 Click **Save** and choose where to place the downloaded file. Remember the location.
- 4 Locate the file that you just downloaded (it's called **setup.exe**). Double-click **setup.exe** to start the installation.
- 5 If prompted, click **Run** or **OK** to install the Edusoft edition.
- 6 Follow the instructions on your screen to complete the installation.  
After you've finished installing, you can delete the **setup.exe** file.

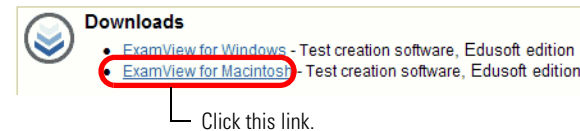

**Note:** If you have an earlier version of ExamView, the ExamView installer will upgrade you to the new version without changing any of your existing settings.

## Downloading the Edusoft edition for Macintosh®

Before you can use ExamView to publish exams to Edusoft, you must download and install the Edusoft version of ExamView. These instructions apply to Mac OS® 9 and OS 10.

### To download the Edusoft edition for Macintosh:

- 1 Log in to the Edusoft web site with your usual user name and password. Click the **Admin** tab.
- 2 Scroll down to the Downloads area and click the **ExamView for Macintosh** link.

The file appears wherever your computer usually places downloaded files. This is typically on your desktop.

- 3 Double-click the **ExamView Pro Installer** icon and follow the instructions on your screen.  
After you've finished installing, you can drag the ExamView Pro Installer icon to the Trashcan.
