About netTrekker resources

netTrekker is an educational search tool that provides high quality standards-aligned, educator-selected digital resources. Depending on your district, you may have access to netTrekker instructional resources through Edusoft. In Edusoft, there are several ways to use netTrekker resources:

- You can browse netTrekker Instructional Resources in Teacher Tools and Curriculum Management. You can also add netTrekker resources to curriculum plans in your Curriculum Locker.
- Using Instructional Tool you can prescribe netTrekker resources for your students based on their test results on Benchmark and Teacher Tools tests. Within netTrekker's My Portfolio area, you can save and scaffold resources, and share netTrekker resources with others.

Browsing netTrekker resources

You can browse netTrekker resources aligned to standards for your state. In addition, once you're on the netTrekker site, you can browse any available resources by searching and browsing the site.

To browse netTrekker resources:

- 1 From Teacher Tools or Curriculum Management, click the link or icon for Instructional Resources.
- 2 Select the standards group, subject, and grade level for the resources you want to browse, and click **Show Resources**.
- 3 In the Browse Resources page, click **View** next to the standard you want to browse resources for.

The resource list appears for the selected standard. netTrekker resources, if available, appear as links under Teaching Aids.

4 Click the **Visit Web Site** link next to netTrekker Resources to view resources for this standard from netTrekker.

You can also click the **netTrekker Resources** link to see more details .

- 5 On the netTrekker site, click a link under the standard to see a list of resources for this standard.

- 6 Explore the netTrekker resources by clicking the link for each resource.

To	Do this
