

Working with Instructional Resources

About instructional resources

Instructional Resources are instructional materials—textbook readings, practice problems, outside reading materials, lesson plans, online exercises, and workbooks, to name a few—that can enrich the classroom teaching experience.

Viewing instructional resources

Depending on how resources are set up in your district, you can view them based on subject, course or grade level, and specific standard. If your Resource Bank contains items that are not aligned to a standard, you can view them as well.

To view instructional resources:

- 1 Click the **Curriculum** or the **Teacher Tools** tab. Click the link or icon for **Instructional Resources**.
- 2 Choose the group of standards.
- 3 Choose a subject area, and then choose a grade level or course.
- 4 To browse the available resources, select the resource type you want to find.
 - To find resources that have been aligned to standards, click **Show Resources**.
 - To find resources that have not been aligned to standards, click **Show resources not aligned to standards**.
- 5 Click the **View** button beside a standard or objective to view the resources aligned for it.

- 6 Click a link for a resource to view it.

CCS--English--Grade Three--Reading 1.6 — The title shows the standards group, subject area, and grade level.
