

Creating an Individual report

An Individual report displays a student’s results on a state exam broken down by subject and reporting category. One report is generated for each student included in the set of students you select. You can run individual reports for a maximum of 100 students at a time.

Restrict the reports based on specific teachers, courses, and so on, until the number of students falls under 100. Or manually select students from the set till it falls below the limit.

Select Option for Individual Reports

Choose one of the **two options** below and click the appropriate **continue** button:

A. Select individual students from this group

or

B. Generate reports for all students in this group (97 students)

To create an Individual report:

- 1 Click the **State Analysis** tab. Click the **PDF Reports for Groups and Individuals** link or icon.
- 2 On the Reports page, select the state test you want to run the report on.
- 3 Click the **Individual Report** link or thumbnail.
- 4 Teachers: Select the beginning pool of students for your report: District, School, or My Classes (allows you to select periods on next page).

To compare scores for students meeting the same demographic criteria, run the same report but change these initial options. You will have overall scores for the district, school, and your classes for the same set of students.

- 5 On the Select Students for Reports page, update these options, if necessary:
 - Roster. This determines which data source is used when running this report: Test Roster (from state exam) or SIS (from school roster).
 - School (if you have access to more than one)
 - Exam for a given time period (and for certain exams, a date range)
 - Grade level
- 6 In the Select Students Based on area:
 - To run a report without selecting specific students, click **Continue**.
 - To run a report for a specific set of students, use the option links to limit the report results. Then click **Continue**.

About the TCAP-CRT Individual report

The Tennessee Comprehensive Assessment Program (TCAP) Achievement Test measures students’ performance relative to the reporting categories set out by the state. These academic reporting categories describe what students should know and be able to do at each grade level (grades 3–8). Tennessee scales the exam results and divides the scaled scores into performance levels.

When you run an Individual report, Edusoft shows how each student scored on the subject and reporting categories. The report also breaks down scores across the performance levels. Because the scores appear both as numbers and bars, you can see at a glance how well each student performed.

When would you use this report?

- You might run this report to have a printed copy of your students’ results.
- You might use this report to identify students on the cusp who are ready for Gifted and Talented programs.
- You might use this report to pair up students for a peer tutoring program.
- You might run this report at the start of the school year to see what areas you need to target for each student.

For more information

- See Edusoft’s online Help and online Library for more information on using State Analysis features.
- Visit your state’s Department of Education Web site for help with interpreting the state exam results:

TCAP-CRT Individual Report Sam A

The title includes the exam name, report type, and student name.

Page 1 of 1

December 7, 2006

Report Options

The report options show which schools, grades, etc. you selected for this report.

Student #: 00000000
School Name: ...
Grade: 4
District Name: ...
System: ...
Exams: TCA
Rosters: 200

Scale Score

Scaled scores take assessment item difficulty into account, providing a more precise measurement of skills and knowledge than raw scores. Therefore, they provide a better measurement for comparison than other scores. The range for scaled scores differs for each subject area, grade, and year.

All Reporting Categories

Number Correct

For each subject area, this shows the number of correct answers given by this student.

Overall Scores

These are the student's overall scores for each subject area.

	Scale Score	Number Correct	Performance Level		
			Below	Proficient	Advanced
Math	442	28	Below	Proficient	Advanced
Reading / Language Arts	477	28	Below	Proficient	Advanced
Science	191	35	Below	Proficient	Advanced
Social Studies	194	33	Below	Proficient	Advanced

Performance Level

Each performance level corresponds to a range of scaled scores established for the exam. The bars show the performance level for this student's scores, by subject area. In these rows, an orange bar indicates a score below the Proficient level.

Reporting Category Scores

These are the student's scores for each reporting category.

	Performance Level	Perf. Index	Performance Index			
			20	40	60	80
Math						
Number Sense/Theory	Below	53	Below	Proficient	Advanced	
Computation	Below	81	Below	Proficient	Advanced

History	Proficient	55	Below	Proficient	Advanced	

Performance Index

This is the normalized percent correct. In other words, if there had been 100 items for the category, this would be the expected number of correct answers. The bars help you easily spot your student's strengths and weaknesses.

Performance Level

This column shows the student's performance level for each reporting category.
