

Creating an Individual report

An Individual report displays a student’s results on a state exam broken down by content and language area. One report is generated for each student included in the set of students you select. You can run individual reports for a maximum of 100 students at a time.

Restrict the reports based on specific teachers, courses, and so on, until the number of students falls under 100. Or manually select students from the set till it falls below the limit.

Select Option for Individual Reports

Choose one of the **two options** below and click the appropriate **continue** button:

A. Select individual students from this group

or

B. Generate reports for all students in this group (97 students)

To create an Individual report:

- 1 Click the **State Analysis** tab. Click the **PDF Reports for Groups and Individuals** link or icon.
- 2 On the Reports page, select the state test you want to run the report on.
- 3 Click the **Individual Report** link or thumbnail.
- 4 Teachers: Select the beginning pool of students for your report: District, School, or My Classes (allows you to select periods on next page).
To compare scores for students meeting the same demographic criteria, run the same report but change these initial options. You will have overall scores for the district, school, and your classes for the same set of students.
- 5 On the Select Students for Reports page, update these options, if necessary:
 - Roster. This determines which data source is used when running this report: Test Roster (from state exam) or SIS (from school roster).
 - School (if you have access to more than one)
 - Exam for a given time period (and for certain exams, a date range)
 - Grade level
- 6 In the Select Students Based on area:
 - To run a report without selecting specific students, click **Continue**.
 - To run a report for a specific set of students, use the option links to limit the report results. Then click **Continue**.

About the TELPAS Individual report

The Texas English Language Proficiency Assessment System (TELPAS) measures a student’s English proficiency in grades K–12: listening, speaking, writing, and reading. When students achieve an advanced proficiency level on this test, they are no longer required to take it. Texas scales the exam results and divides the scaled scores into proficiency levels.

When you run an Individual report, Edusoft shows how each student scored on the content and language areas. The report also breaks down scores across the proficiency levels. Because the scores appear both as numbers and bars, you can see at a glance how well each student performed.

When would you use this report?

- You might run this report to have a printed copy of your students’ results.
- You might use this report to identify students on the cusp who are ready for Gifted and Talented programs.
- You might use this report to pair up students for a peer tutoring program.
- You might run this report at the start of the school year to see what areas you need to target for each student.

For more information

- See Edusoft’s online Help and online Library for more information on using State Analysis features.
- Visit your state’s Department of Education Web site for help with interpreting the state exam results:

Report Options

The report options show which schools, grades, etc. you selected for this report.

TELPAS Composite Rating/Score These are the student's overall proficiency level and score. They are calculated from the scores in the 4 language areas.	TELPAS Comprehension Score The TELPAS comprehension score is taken from the listening and reading language areas. The range is from 1.0–4.0.
---	--

RPTE Scale Score/Total Raw Score/Percent Correct

These are the student's scores for the Reading Proficiency Tests in English (RPTE) part of the TELPAS. Beginning with grade 3, reading results are tracked in more detail under a separate section. These numbers show this student's scaled score (which differs for each grade and year), raw score (score of correct answers), and the percent of correct answers.

Overall

This is the student's overall test score.

	TELPAS Composite Rating	TELPAS Composite Score	TELPAS Comprehension Score	RPTE Scale Score	RPTE Total Raw Score	RPTE Percent Correct
Overall	Advanced	2.80	3.00	728	49	88 %

Language Areas

These are the student's scores for each language area.

	Proficiency Rating			
	Beginning	Intermediate	Advanced	Advanced High
Listening			██████████	
Speaking			██████████	
Writing	██████████			
Reading			██████████	

Proficiency Rating

Each proficiency level corresponds to a range of scaled scores established for this exam. These bars help you determine this student's strengths and weaknesses.

Proficiency

These are the student's scores for each RPTE language subarea, by proficiency level. (No RPTE data for grades K-2).

	Raw Score	Percent Correct	Percent Correct			
			20	40	60	80
Total Beginning Proficiency Level	20	100 %	██████████	██████████	██████████	██████████
Beg. Word Meaning	8	100 %	██████████	██████████	██████████	██████████
Beg. Supporting Ideas	4	100 %	██████████	██████████	██████████	██████████
Beg. Summarization	4	100 %	██████████	██████████	██████████	██████████
Beg. Analyzing and Evaluating	4	100 %	██████████	██████████	██████████	██████████
Total Intermediate Proficiency Level	18	100 %	██████████	██████████	██████████	██████████
Int. Word Meaning	6	100 %	██████████	██████████	██████████	██████████
Int. Supporting Ideas	4	100 %	██████████	██████████	██████████	██████████
Int. Summarization	4	100 %	██████████	██████████	██████████	██████████
Int. Analyzing and Evaluating	4	100 %	██████████	██████████	██████████	██████████
Total Advanced Proficiency Level	11	61 %	██████████	██████████	██████████	██████████
Adv. Word Meaning	2	50 %	██████████	██████████	██████████	██████████
Adv. Supporting Ideas	3	75 %	██████████	██████████	██████████	██████████
Adv. Summarization	3	75 %	██████████	██████████	██████████	██████████
Adv. Analyzing and Evaluating	3	50 %	██████████	██████████	██████████	██████████

Percent Correct

This column shows the student's percent of questions answered correctly in each proficiency level and language subarea. The percent is shown as a number as well as a bar chart, which helps you quickly see high and low scores.

Raw Score

This column shows the number of correct answers in each proficiency level and language subarea. Raw scores are limited in their measurement precision because of differences among test items (some items are more difficult than others).

Items are scored according to their relative difficulty: Beginning, Intermediate, and Advanced. This student scored 100% percent correct on the items in the Beginning and Intermediate levels. On the Advanced level items, his scores ranged from 50–75% correct.
